# NOSI: Administrative Supplements for Research on Women's Health in the IDeA States

Zuzana Justinova

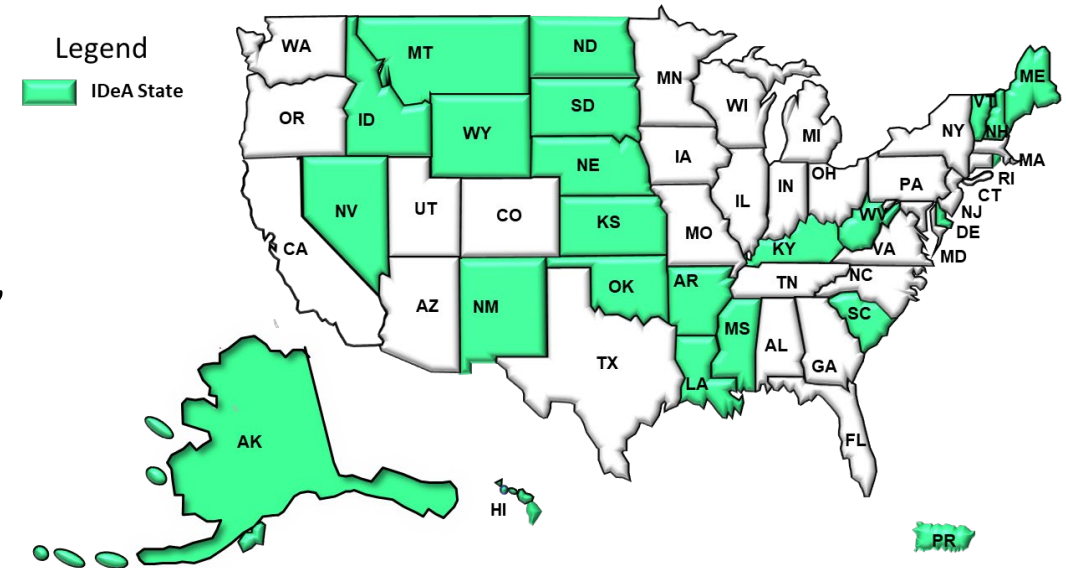

Division for Research Capacity Building, NIGMS

March 5, 2020

# The IDeA program and Women's Health Challenges in the IDeA States

- **The IDeA Program:** This congressionally mandated program supports research and research capacity building in states with historically low levels of NIH funding.
- **Women's Health Challenges in IDeA states:**  
Residents of IDeA states have less access to health care and suffer poorer health outcomes, including the health outcomes for women and children, compared to the rest of America.

# NOSI: Administrative Supplements for Research on Women's Health in the IDeA States

---

**Notice:** [NOT-GM-20-017](#)

**Goal:**

- Expand research and research capability in the IDeA states to address important issues of women's health.

**Research to be supported:**

- The NOSI encourages a broad range of research addressing important issues of women's health including maternal health with a special interest in maternal and infant mortality, as well as their underlying causes.
- The proposed research must address at least one of the strategic goals of the 2019-2023 [Trans-NIH Strategic Plan for Women's Health Research](#) "Advancing Science for the Health of Women".

**Issued by:**

- NIGMS with ORWH, NCI, NEI, NHLBI, NIA, NIAAA, NIAID, NIBIB, NICHD, NIDA, NIEHS, NINR, NCCIH

# NOSI: Administrative Supplements for Research on Women's Health in the IDeA States

---

## Eligibility:

- Limited to current awardees of the following NIGMS IDeA programs:
  - Centers of Biomedical Research Excellence (**COBRE**)
  - IDeA Networks of Biomedical Research Excellence (**INBRE**)
  - IDeA Infrastructure for Clinical and Translational Research (**IDeA-CTR**)
- Only one supplement request per grant will be accepted (each request may include more than one research project).
- Active awards with project end dates in FY 2021 or later are eligible.
- The award may not be in a terminal no-cost extension (NCE) or going into an NCE in FY 2020.

# NOSI: Administrative Supplements for Research on Women's Health in the IDeA States

## Eligibility cont.:

- Research project(s) proposed in the supplement application must be led by the following investigators **presently or previously supported by the current five-year parent award**:
  - COBRE Research Project Leaders
  - COBRE or IDeA-CTR Pilot Project Leaders
  - INBRE Developmental Research Project Program investigators
- Co-Project Leads are allowed for collaborative projects.
- The PD/PIs of the parent awards cannot serve as Project Leads for the proposed research, nor use the supplemental funds to support their own research.

# NOSI: Administrative Supplements for Research on Women's Health in the IDeA States

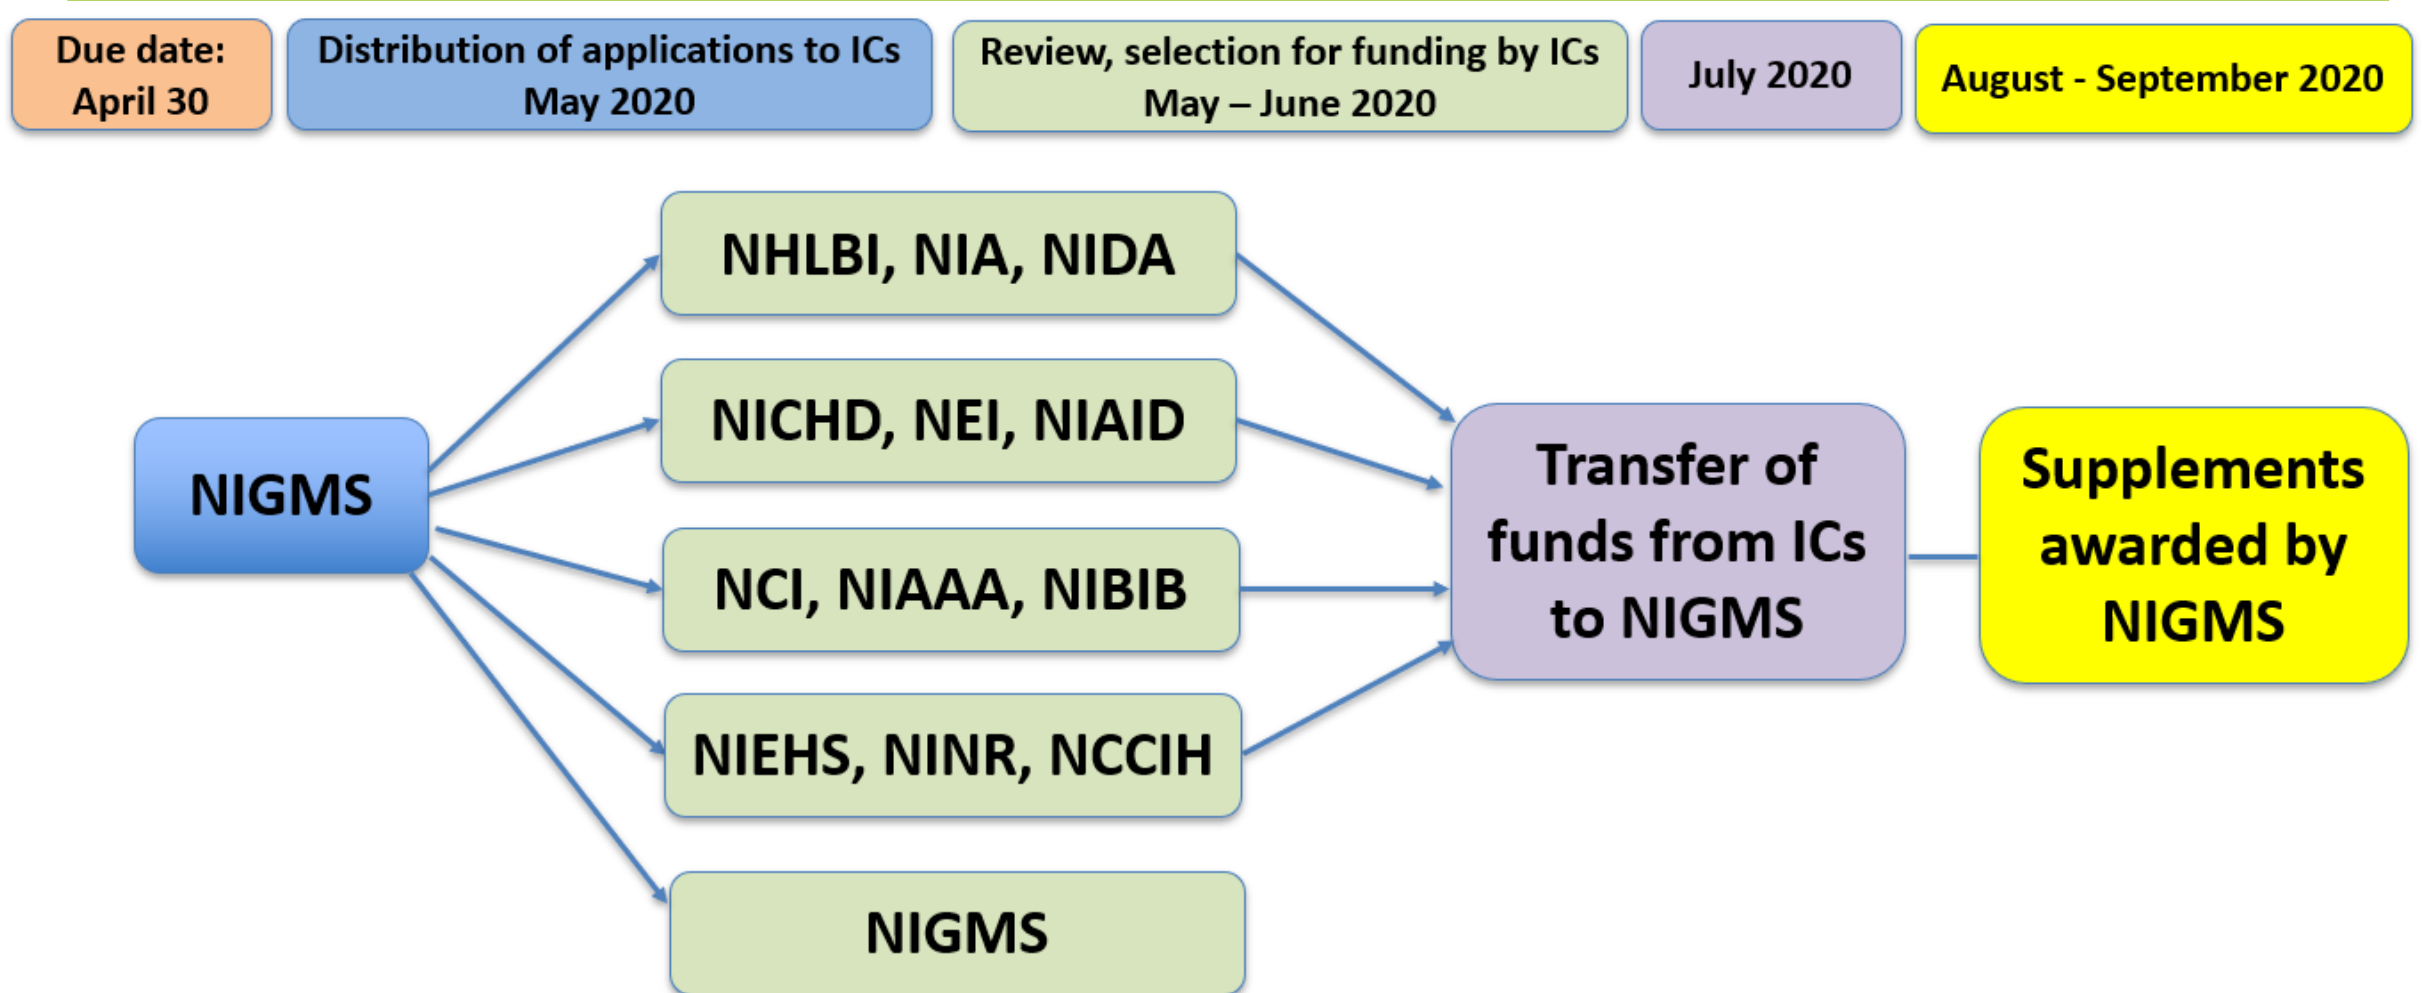

## Application and Submission Information:

- Due date for applications is April 30<sup>th</sup>, 2020.
- Up to \$200,000 per 1 year in direct costs exclusive of F&A costs on sub-contracts.
- Project must be appropriate for the duration of one year.
- Proposed activity must be within the scope of the parent grant.
- The Research Strategy section of the application is limited to 6 pages
- The Research Strategy must clearly describe the significance of the project.

## Inquiries:

- [Dr. Regine Douthard](#) (ORWH) – inquiries related to scientific content of the applications
- [Dr. Zuzana Justinova](#) (NIGMS) – inquiries related to IDeA program, NIGMS grants management and policy requirements
