Disclaimer

- This informational video is not in lieu of the guidance and instructions provided by NIH.
- Before completing the NIH tables, please read the following documents carefully:
 - 1) The appropriate Notice of Funding Opportunity for the grant to which you are applying;
 - 2) The SF424 (R&R) Application Guidelines, paying particular attention to the PHS 398 Research Training Program Plan Form; and
 - 3) The individual table instructions, that tend to include rationale statements and sample tables, where available.

NIH Training Table: 6A

- NIGMS no longer requires Training Table 6A in its Institutional Predoctoral T32 training grant applications (new and renewals).
- If Table 6A is included, the application will be considered noncompliant and may not be reviewed.
- Applicant organizations are encouraged to use Suggested Formats Table A for single department program applications and Suggested Formats Table A and Suggested Formats Table B for applications with multi-departmental or multi-organizational structures.
- For more information about the Data Tables for NIGMS Institutional Predoctoral T32 training programs please visit the [Predoctoral NIH Data Tables and Suggested Data Formats](#) website.

Removing Table 6A from your application

- To avoid the inclusion of Table 6A in a training data table set generated via xTRACT, applicants should **omit the "Start year of the most recently completed academic year"** when prompted in the Applicants/Entrants section. (See [FAQ's](#) for more info)
- The resulting PDF will then exclude Table 6A.
